

RoHS, REACH and POP Declaration of Conformity

For the products placed on the market by InoNet Computer GmbH in the European Economic Area, we confirm the following:

- 1) **RoHS** (2011/65/EU, amended by 2015/863/EU). Based on the EN IEC 63000:2018 standard (technical documentation), we have taken the necessary measures to ensure compliance with the RoHS Directive. To the best of our current knowledge, our products do not contain any of the substances restricted in accordance with Annex II of Directive 2011/65/EU (including 2015/863) above the applicable limit values. We continuously monitor updates to Annexes III/IV (exemptions) and take these into account in our procurement and approval processes. We are not currently claiming any RoHS exemptions.
- 2) **REACH** (EC) No. 1907/2006 – SVHC Candidate List. InoNet acts as a downstream user/integrator of articles. Based on current supplier declarations and assessments, our articles do not contain any substances from the Candidate List of Substances of Very High Concern (SVHC) in a concentration > 0.1% (w/w) per article, according to the status of the Candidate List as of 21 January 2025 (247 entries). We are committed to ongoing monitoring and updating in line with future additions to the Candidate List and to fulfilling any information obligations under Article 33 of REACH.
- 3) **POP** Regulation (EU) 2019/1021. Our products and packaging materials comply with POP Regulation (EU) 2019/1021, including amendments published in the Official Journal until February 2025, such as the inclusion of methoxychlor in Annex I (Delegated Regulation (EU) 2024/2570) and the applicable limit and waste regulations. - Where applicable, we ensure that no listed POPs are manufactured, placed on the market or used; for recycled materials, the relevant limit values are complied with.

Notes on supply chain responsibility: We verify the RoHS, REACH and POP compliance of our components and purchased parts on the basis of supplier declarations, material data (e.g. CoCs, test reports) and risk-based random samples. As we rely on information provided by suppliers, parts of this declaration are based on their information to the best of their knowledge and belief.

Disclaimer: Beyond its legal obligations, InoNet Computer GmbH accepts no liability for indirect damage, consequential damage or loss of profit arising from the use of this information.

Taufkirchen, August 2025

i.A. 

Werner Sowade
